## EXPERIENCE

- 2022 Sep - **Senior Software Engineer**  
2023 Sep  
↳ (1 year) Tilt, CO (series A startup)
- ↳ Full-stack development for Tilt's Rippling integration and FMLA benefits eligibility applicator using Django Rest Framework, Python 3.x, React, TypeScript, Postgres, and Docker.
  - ↳ The integrations doubled the customer base for their flagship product, and assisted in exceeding aggressive \$1M+ ARR sales growth targets despite rough economic conditions.
- 2022 Jan - **Backend Engineer II**  
2022 Jul  
↳ (6 months) Catalyst Software, NY (series A startup)
- ↳ Built upon and optimized internal Rails API for integration with Nylas using Ruby on Rails w/ Grape API, RSpec, Elasticsearch, Postgres, and Docker, providing critical email and calendar integration within Catalyst's customer success platform.
- 2019 Oct - **Principal Software Engineer**  
2021 Nov  
↳ (2 years) AI Illuminated Corp, DE (pre-seed startup)
- ↳ Directed IT and software operations, managed development teams and mentored junior devs through 7x staff growth.
  - ↳ Pioneered educational AI-focused web apps built with VueJS, Node, Django, Python 3.x, TypeScript, and MariaDB which helped generate \$1+ million dollars of revenue for the first year.
- 2016 Jan - **Full-Stack Engineer I/II**  
2019 Jun  
↳ (3.5 years) Independent School Management Inc, DE
- ↳ Maintained multiple large-scale web applications built with AngularJS, PHP and MySQL which serviced millions of users and generated several million dollars in revenue each year.
  - ↳ Developed back-end services and APIs written in Node, C#.NET, PHP, and MySQL which processed hundreds of thousands of digital documents and data sets each month using OCR and ML.

## EDUCATION

- 2011 Aug - **B.S. Degree in Web Information Systems**  
2013 Apr  
Wilmington University, DE
- ↳ Studies: Web apps, relational databases and visual design.
  - ↳ Cumulative GPA: 3.90 / 4.00

## PROFILE

With seven years of professional software engineering experience, including two years at a senior capacity, I have developed and maintained high-quality web applications for millions of users using modern web technologies such as Vue, React, AngularJS, Node, and Django. I have extensive knowledge and experience in various programming languages and databases such as JavaScript/TypeScript, Python, C#.NET, PostgreSQL, MySQL, and Elasticsearch. I have also led and mentored developers through complex web projects, ensuring best practices and standards were followed. I am looking to further grow my skills alongside a company that fosters innovation and quality.

## SKILLS

- ✓ React/Django (DRF/Postgres)
- ✓ MEAN (Vue/Node/AngularJS)
- ✓ LAMP (PHP7/MySQL/Linux)
- ✓ Ruby on Rails (Grape/RSpec)
- ✓ REST API (internal/external)
- ✓ Search Analytics (ElasticSearch)
- ✓ Cloud Services (AWS EC2/S3)
- ✓ Containerization (Docker)
- ✓ AI/ML (TensorFlow.js/XGBoost)
- ✓ TDD (Jest/Mocha/Pytest/RSpec)
- ✓ Agile (JIRA/GitHub/PRs/Sprints)
- ✓ Markup (HTML5/CSS3/SASS)
- ✓ WPF/Console (C#.NET4.5)
